THE LIBRARY OF CONGRESS • WASHINGTON

The MONTHLY LIST OF RUSSIAN ACCESSIONS is a record of publications in the Russian language in and outside the Soviet Union which are currently received by the Library of Congress and a group of cooperating libraries. Whenever possible Soviet editions printed in other languages which are spoken in the Soviet Union will also be included.

The LIST consists of two parts: Part A, covering the monographic literature published since 1945, and Part B, listing the contents of Russian periodicals printed since 1947. The material is classified by subject, and is arranged alphabetically within each class. All entries are transliterated according to the system employed by the Library of Congress with the exception that ligatures are omitted. In some cases, however, where periodical entries have been supplied by others, the titles of articles in each issue are translated into English. Unless otherwise indicated, all listed items are represented in the collections of the Library of Congress. Symbols representing other libraries indicate when items are available in those libraries. Curves ( ) around a symbol indicate that the material is available in another library but not in the Library of Congress. Lists of periodicals received regularly by the cooperating libraries will be published from time to time.

Orders for microfilm or photostat copies of the listed items which are in the collections of the Library of Congress, may be placed with the Photoduplication Service, Library of Congress, Washington 25, D. C.

The MONTHLY LIST OF RUSSIAN ACCESSIONS is distributed by the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C. The subscription rate is $2.00 per year.

MONTHLY LIST *of* RUSSIAN ACCESSIONS

VOL. 2, NO. 2 MAY 1949

THE LIBRARY OF CONGRESS • WASHINGTON

The MONTHLY LIST OF RUSSIAN ACCESSIONS is a recor of publications in the Russian language in and outside the Sovie Union which are currently received by the Library of Congres and a group of cooperating libraries. Whenever possible, Sovie editions printed in other languages which are spoken in the Sovie Union will also be included.

The LIST consists of two parts: Part A, covering the monographic literature published since 1945; and Part B, listing th contents of Russian periodicals printed since 1947. The materia is classified by subject, and is arranged alphabetically within each class. All entries are transliterated according to the system employed by the Library of Congress with the exception that ligatures are omitted. In some cases, however, where periodical entries have been supplied by others, the titles of articles in each issue are translated into English. Unless otherwise indicated, all listed items are represented in the collections of the Library of Congress. Symbols representing other libraries indicate when items are available in those libraries. Curves ( ) around a symbol indicate that the material is available in another library but not in the Library of Congress. Lists of periodicals received regularly by the cooperating libraries will be published from time to time.

Orders for microfilm or photostat copies of the listed items which are in the collections of the Library of Congress, may be placed with the Photoduplication Service, Library of Congress, Washington 25, D. C.

The MONTHLY LIST OF RUSSIAN ACCESSIONS is for sale by the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C.

Price, 30 cents a copy; subscription price, $3.00 a year domestic, $4.00 a year foreign.

MONTHLY LIST
of
RUSSIAN ACCESSIONS

Vol. 2, No. 3 June 1949

THE LIBRARY OF CONGRESS • WASHINGTON

The MONTHLY LIST OF RUSSIAN ACCESSIONS is a record of publications in the Russian language in and outside the Soviet Union which are currently received by the Library of Congress and a group of cooperating libraries. Whenever possible, Soviet editions printed in other languages which are spoken in the Soviet Union will also be included.

The LIST consists of two parts: Part A, covering the monographic literature published since 1945; and Part B, listing the contents of Russian periodicals printed since 1947. The material is classified by subject, and is arranged alphabetically within each class. All entries are transliterated according to the system employed by the Library of Congress with the exception that ligatures are omitted. In some cases, however, where periodical entries have been supplied by others, the titles of articles in each issue are translated into English. Unless otherwise indicated, all listed items are represented in the collections of the Library of Congress. Symbols representing other libraries indicate when items are available in those libraries. Curves ( ) around a symbol indicate that the material is available in another library but not in the Library of Congress. Lists of periodicals received regularly by the cooperating libraries will be published from time to time.

Orders for microfilm or photostat copies of the listed items which are in the collections of the Library of Congress, may be placed with the Photoduplication Service, Library of Congress, Washington 25, D. C.

The MONTHLY LIST OF RUSSIAN ACCESSIONS is for sale by the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C.

Price, 30 cents a copy; subscription price, $3.00 a year domestic, $4.00 a year foreign.

MONTHLY LIST
of
RUSSIAN ACCESSIONS

Vol. 2, No. 4 July 1949

THE LIBRARY OF CONGRESS • WASHINGTON

The MONTHLY LIST OF RUSSIAN ACCESSIONS is a record of publications in the Russian language in and outside the Soviet Union which are currently received by the Library of Congress and a group of cooperating libraries. Whenever possible, Soviet editions printed in other languages which are spoken in the Soviet Union will also be included.

The LIST consists of two parts: Part A, covering the monographic literature published since 1945; and Part B, listing the contents of Russian periodicals printed since 1947. The material is classified by subject, and is arranged alphabetically within each class. All entries are transliterated according to the system employed by the Library of Congress with the exception that ligatures are omitted. In some cases, however, where periodical entries have been supplied by others, the titles of articles in each issue are translated into English. Unless otherwise indicated, all listed items are represented in the collections of the Library of Congress. Symbols representing other libraries indicate when items are available in those libraries. Curves ( ) around a symbol indicate that the material is available in another library but not in the Library of Congress. Lists of periodicals received regularly by the cooperating libraries will be published from time to time.

Orders for microfilm or photostat copies of the listed items which are in the collections of the Library of Congress, may be placed with the Photoduplication Service, Library of Congress, Washington 25, D. C.

The MONTHLY LIST OF RUSSIAN ACCESSIONS is for sale by the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C.

Price, 30 cents a copy; subscription price, $3.00 a year domestic, $4.00 a year foreign.

MONTHLY LIST
of
RUSSIAN ACCESSIONS

Vol. 2, No. 5
August 1949

THE LIBRARY OF CONGRESS • WASHINGTON

The MONTHLY LIST OF RUSSIAN ACCESSIONS is a record of publications in the Russian language in and outside the Soviet Union which are currently received by the Library of Congress and a group of cooperating libraries. Whenever possible, Soviet editions printed in other languages which are spoken in the Soviet Union will also be included.

The LIST consists of two parts: Part A, covering the monographic literature published since 1945; and Part B, listing the contents of Russian periodicals printed since 1947. The material is classified by subject, and is arranged alphabetically within each class. All entries are transliterated according to the system employed by the Library of Congress with the exception that ligatures are omitted. In some cases, however, where periodical entries have been supplied by others, the titles of articles in each issue are translated into English. Unless otherwise indicated, all listed items are represented in the collections of the Library of Congress. Symbols representing other libraries indicate when items are available in those libraries. Curves ( ) around a symbol indicate that the material is available in another library but not in the Library of Congress. Lists of periodicals received regularly by the cooperating libraries will be published from time to time.

Orders for microfilm or photostat copies of the listed items which are in the collections of the Library of Congress, may be placed with the Photoduplication Service, Library of Congress, Washington 25, D. C.

The MONTHLY LIST OF RUSSIAN ACCESSIONS is distributed by the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C. The subscription rate is $8.00 per year.

MONTHLY LIST
of
RUSSIAN ACCESSIONS

VOL. 2, NO. 6 SEPTEMBER 1949

THE LIBRARY OF CONGRESS • WASHINGTON

The MONTHLY LIST OF RUSSIAN ACCESSIONS is a record of publications in the Russian language in and outside the Soviet Union which are currently received by the Library of Congress and a group of cooperating libraries. Whenever possible, Soviet editions printed in other languages which are spoken in the Soviet Union will also be included.

The LIST consists of two parts: Part A, covering the monographic literature published since 1945; and Part B, listing the contents of Russian periodicals printed since 1947. The material is classified by subject, and is arranged alphabetically within each class. All entries are transliterated according to the system employed by the Library of Congress with the exception that ligatures are omitted. In some cases, however, where periodical entries have been supplied by others, the titles of articles in each issue are translated into English. Unless otherwise indicated, all listed items are represented in the collections of the Library of Congress. Symbols representing other libraries indicate when items are available in those libraries. Curves ( ) around a symbol indicate that the material is available in another library but not in the Library of Congress. Lists of periodicals received regularly by the cooperating libraries will be published from time to time.

Orders for microfilm or photostat copies of the listed items which are in the collections of the Library of Congress, may be placed with the Photoduplication Service, Library of Congress, Washington 25, D. C.

The MONTHLY LIST OF RUSSIAN ACCESSIONS is for sale by the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C.

Price, 30 cents a copy; subscription price, $3.00 a year domestic, $4.00 a year foreign.

MONTHLY LIST *of* RUSSIAN ACCESSIONS

VOL. 2, No. 7 OCTOBER 1949

THE LIBRARY OF CONGRESS • WASHINGTON

The MONTHLY LIST OF RUSSIAN ACCESSIONS is a record of publications in the Russian language in and outside the Soviet Union which are currently received by the Library of Congress and a group of cooperating libraries. Whenever possible, Soviet editions printed in other languages which are spoken in the Soviet Union will also be included.

The LIST consists of two parts: Part A, covering the monographic literature published since 1945; and Part B, listing the contents of Russian periodicals printed since 1947. The material is classified by subject, and is arranged alphabetically within each class. All entries are transliterated according to the system employed by the Library of Congress with the exception that ligatures are omitted. In some cases, however, where periodical entries have been supplied by others, the titles of articles in each issue are translated into English. Unless otherwise indicated, all listed items are represented in the collections of the Library of Congress. Symbols representing other libraries indicate when items are available in those libraries. Curves ( ) around a symbol indicate that the material is available in another library but not in the Library of Congress. Lists of periodicals received regularly by the cooperating libraries will be published from time to time.

MONTHLY LIST
of
RUSSIAN ACCESSIONS

Vol. 2, No. 8 November 1949

THE LIBRARY OF CONGRESS • WASHINGTON

The MONTHLY LIST OF RUSSIAN ACCESSIONS is a record of publications in the Russian language in and outside the Soviet Union which are currently received by the Library of Congress and a group of cooperating libraries. Whenever possible, Soviet editions printed in other languages which are spoken in the Soviet Union will also be included.

The LIST consists of two parts: Part A, covering the monographic literature published since 1945; and Part B, listing the contents of Russian periodicals printed since 1947. The material is classified by subject, and is arranged alphabetically within each class. All entries are transliterated according to the system employed by the Library of Congress with the exception that ligatures are omitted. In some cases, however, where periodical entries have been supplied by others, the titles of articles in each issue are translated into English. Unless otherwise indicated, all listed items are represented in the collections of the Library of Congress. Symbols representing other libraries indicate when items are available in those libraries. Curves ( ) around a symbol indicate that the material is available in another library but not in the Library of Congress. Lists of periodicals received regularly by the cooperating libraries will be published from time to time.

Orders for microfilm or photostat copies of the listed items which are in the collections of the Library of Congress, may be placed with the Photoduplication Service, Library of Congress, Washington 25, D. C.

The MONTHLY LIST OF RUSSIAN ACCESSIONS is distributed by the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C. The subscription rate is $2.00 per year.

MONTHLY LIST
of
RUSSIAN ACCESSIONS

Vol. 2, No. 9 DECEMBER 1949

THE LIBRARY OF CONGRESS • WASHINGTON

The MONTHLY LIST OF RUSSIAN ACCESSIONS is a record of publications in the Russian language in and outside the Soviet Union which are currently received by the Library of Congress and a group of cooperating libraries. Whenever possible, Soviet editions printed in other languages which are spoken in the Soviet Union will also be included.

The LIST consists of two parts: Part A, covering the monographic literature published since 1945; and Part B, listing the contents of Russian periodicals printed since 1947. The material is classified by subject, and is arranged alphabetically within each class. All entries are transliterated according to the system employed by the Library of Congress with the exception that ligatures are omitted. In some cases, however, where periodical entries have been supplied by others, the titles of articles in each issue are translated into English. Unless otherwise indicated, all listed items are represented in the collections of the Library of Congress. Symbols representing other libraries indicate when items are available in those libraries. Curves ( ) around a symbol indicate that the material is available in another library but not in the Library of Congress. Lists of periodicals received regularly by the cooperating libraries will be published from time to time.

Orders for microfilm or photostat copies of the listed items which are in the collections of the Library of Congress, may be placed with the Photoduplication Service, Library of Congress, Washington 25, D. C.

The MONTHLY LIST OF RUSSIAN ACCESSIONS is for sale by the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C.

Price, 30 cents a copy; subscription price, $3.00 a year domestic, $4.00 a year foreign.

MONTHLY LIST
of
RUSSIAN ACCESSIONS

VOL. 2, NO. 11 FEBRUARY 1950

THE LIBRARY OF CONGRESS • WASHINGTON

The MONTHLY LIST OF RUSSIAN ACCESSIONS is a record of publications in the Russian language in and outside the Soviet Union which are currently received by the Library of Congress and a group of cooperating libraries. Whenever possible, Soviet editions printed in other languages which are spoken in the Soviet Union will also be included.

The LIST consists of two parts: Part A, covering the monographic literature published since 1945; and Part B, listing the contents of Russian periodicals printed since 1947. The material is classified by subject, and is arranged alphabetically within each class. All entries are transliterated according to the system employed by the Library of Congress with the exception that ligatures are omitted. In some cases, however, where periodical entries have been supplied by others, the titles of articles in each issue are translated into English. Unless otherwise indicated, all listed items are represented in the collections of the Library of Congress. Symbols representing other libraries indicate when items are available in those libraries. Curves ( ) around a symbol indicate that the material is available in another library but not in the Library of Congress. Lists of periodicals received regularly by the cooperating libraries will be published from time to time.

Orders for microfilm or photostat copies of the listed items which are in the collections of the Library of Congress, may be placed with the Photoduplication Service, Library of Congress, Washington 25, D. C.

The MONTHLY LIST OF RUSSIAN ACCESSIONS is for sale by the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C.

Price, 30 cents a copy; subscription price, $3.00 a year domestic, $4.00 a year foreign.

MONTHLY LIST *of* RUSSIAN ACCESSIONS

Vol. 2, No. 10
January 1950

THE LIBRARY OF CONGRESS • WASHINGTON

U. S. SUPT. OF DOCS

The MONTHLY LIST OF RUSSIAN ACCESSIONS is a record of publications in the Russian language in and outside the Soviet Union which are currently received by the Library of Congress and a group of cooperating libraries. Whenever possible, Soviet editions printed in other languages which are spoken in the Soviet Union will also be included.

The LIST consists of two parts: Part A, covering the monographic literature published since 1945, and Part B, listing the contents of Russian periodicals printed since 1947. The material is classified by subject, and is arranged alphabetically within each class. All entries are transliterated according to the system employed by the Library of Congress with the exception that ligatures are omitted. In some cases, however, where periodical entries have been supplied by others, the titles of articles in each issue are translated into English. Unless otherwise indicated, all listed items are represented in the collections of the Library of Congress. Symbols representing other libraries indicate when items are available in those libraries. Curves ( ) around a symbol indicate that the material is available in another library but not in the Library of Congress. Lists of periodicals received regularly by the cooperating libraries will be published from time to time.

Orders for microfilm or photostat copies of the listed items which are in the collections of the Library of Congress, may be placed with the Photoduplication Service, Library of Congress, Washington 25, D. C.

The MONTHLY LIST OF RUSSIAN ACCESSIONS is for sale by the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C.

Price, 30 cents a copy; subscription price, $3.00 a year domestic, $4.00 a year foreign.

Contents:-Deparafinizatsiia skvazhin. Osvoenie glubokikh skvazhin nasosami. Opyt osvoeniia reduktora stanka-kachalki SKN-3. Ekspluatatsiia skvazhin glubokimi nasosami s podveskoi svyshe 1500 m. Trubnye soedineniia s odnim boltom. Agregat dlia kapital'nogo remonta skvazhin. Kombinirovannaia podveska polirovannogo shtoka k stankam-kachalkam. Dinamometrirovaniia skvazhin v treste Buguruslanneft'. Mekhanicheskaia peremotka tartal'nogo kanata. Rolikovaia opravka dlia ispravleniia smiatykh obsadnykh kolonn. Zazhim dlia izmereniia pronitsaemosti. Restavratsiia nasosno-kompressornykh trub.

ol. 3, no. 3, 1948.
Contents:- Vnedrenie vtorichnykh metodov ekspluatatsii. Metod otorochki pri zakonturnom zavodnenii. Dinamometrirovanie skvazhin v treste Leninneft'. Issledovanie glubokonasosnykh skvazhin v treste Leninneft'. Bor'ba s korroziei glubokikh nasosov pri nagnetanii v plast vozdukha. Vnedrenie fontannykh trub malogo diametra. Trapy dlia neftianoi promyshlennosti vostochnykh raionov. Primenenie shchelochnykh otkhodov v kachestve deemul'gatora.

ol. 3, no. 4, 1948.
Contents:-Tekhnicheskii plan Miniuzhzapadnefti na 1948 g. po dobyche nefti. Pribor dlia opredeleniia gazopronitsaemosti porod. Prakticheskie raschety pri kislotnykh obrabotkakh skvazhin. Prisposoblenie dlia sniatiia fontannoi armatury s ust'ia skvazhiny. Shurf dlia podveski glubokonasosnykh shtang. Napravliaiushchaia voronka dlia spuska nasosnykh shtang. Prisposoblenie dlia perevozki shtang.

Vol. 3, no. 5, 1948.
Contents:-Opyt primeneniia graviinogo fil'tra. Opyt primeneniia rtutnykh manometrov pri issledovanii fontannykh skvazhin. Primenenie termokhimicheskoi i termokislotnoi obrabotki skvazhin. Raschet glubokonasosnoi ustanovki dlia ekspluatatsii neftianykh skvazhin. Vozdukhoraspredelitel'naia sektsiia vysokogo davleniia. Dozirovochnyi nasos dlia podachi reagenta pri deemul'satsii nefti. Podgotovka nagnetatel'nykh skvazhin dlia zakonturnogo zavodneniia.

Vol. 3, no. 6, 1948.
Contents:-Raschet rasstoianiia mezhdu skvazhinami pri zavodnenii neftianogo plasta. Avtomaticheskii dozator podachi kisloty v skvazhinu. O soderzhanii khloridov v neftianykh plastakh. Novyi sposob ochistki vody ot kisloroda. Opyt primeneniia normal'nykh dvigatelei s razreznymi obmotkami korotkozamknutykh rotorov. Ispol'zovanie malomoshchnykh magnitnykh puskatelei. Samouplotniaiushchiisia sal'nik SGN. Fonar' dlia proverki germetichnosti klapanov glubokikh nasosov. Skrebok dlia ochistki trub ot parafina. Reduktor TSD4-130. Inzhektornaia promyvka neftianykh skvazhin aerizirovannoi zhidkost'iu. Predokhranitel' na nasosnykh shtangakh.

Vol. 3, no. 7, 1948.
Contents:-Za novuiu promyslovuiu tekhniku. Agregat dlia remonta skvazhin "Bakinets". Deemul'satsionnaia ustanovka dlia ergazliftovykh skvazhin. Spaider SNT-2½. Promyvochnye agregaty. Peredvizhnye ustanovki dlia zhelonochnogo tartaniia. Kokil'noe lit'e detalei neftianogo oborudovaniia. Uluchshenie tekhnologii izgotovleniia glubokikh nasosov. Talevaia sistema. Lovil'nyi instrument dlia nasosno-kompressornykh trub. Ob ispol'zovanii tsel'notianutykh tonkostennykh trub. Rabota vstavnykh glubokikh nasosov. Khronika.

Vol. 3, no. 8, 1948.
Contents:-Uravnoveshivanie stankov-kachalok. Raschet glubokonasosnoi ustanovki dlia ekspluatatsii neftianykh skvazhin. Bezopasnaia zavodnaia ruchka k traktoru "Stalinets". Pribor dlia registratsii urovnia v skvazhinakh (p'ezograf). Novoe v proizvodstve glubokikh nasosov. Gazometr s vozdushnym kolokolom. Skorostnye metody promyvki peschanykh probok.

Vol. 3, no. 9, 1948.
Contents:-Opytnoe zavodnenie na Novo-Stepanovskom mestorozhdenii. Signalizator podachi glubokogo nasosa. Opredelenie soderzhaniia vody v neftianykh emul'siiakh po metodu trekh udel'nykh vesov. Raschet samotechnykh truboprovodov. Stanok - kachalka 2SKN-5 Modernizatsiia sharnirnykh kliuchei. Bluzhdaiushchie toki - prichina korrozii oborudovaniia.

Vol. 3, no. 10, 1948.
Contents:-Kharakteristiki elektrodvigatelei stankov - - kachalok normal'nogo riada. Povyshenie koeffitsienta moshchnosti na neftianykh promyslakh tresta Kalinin-

neft'. Vybor tipa elektrodvigatelia dlia privoda stankov-kachalok. Poluavtomaticheskii puskatel' elektrodvigatelei s tiazhelym puskom. Pul't upravleniia glubokonasosnymi skvazhinami. Elektrodeparafinizatsiia skvazhin v treste "Tuimazaneft'". Usovershenstvovannaia stiazhka dlia mekhanicheskogo dinamografa. Razgruzhaiushchiisia paker.

Vol. 3, no. 11, 1948.
Contents:-Kontrol'no-izmeritel'nye pribory v neftedobyche. Maksimal'nyi glubinnyi manometr. Liftovyi glubinnyi manometr. Primenenie glubinnykh manometrov GM-2 na promyslakh Azneft. [illegible] manometr. Glubinnyi vodomer. [illegible]. Registrator raboty skvazhin. Debitomer dlia issledovaniia neftianykh skvazhin. Prisposoblenie dlia svinchivaniia i razvinchivaniia fontannoi armatury. Nasosnaia ekspluatatsiia glubokikh skvazhin.

Vol. 3, no. 12, 1948.
Contents:-Vtorichnye metody dobychi nefti na promyslakh Krasnodarnefti. Vtorichnye metody ekspluatatsii na promyslakh Ukrnefti. Ustranenie iskrivleniia kanata pri pod"eme i spuske shtang "na [illegible]". Biuro tekhniko-ekonomicheskoi informatsii TsIMTneft' "Novosti neftianoi tekhniki". Parovaia deparafinizatsionnaia ustanovka. Skrebki dlia udaleniia parafina iz glubokonasosnykh skvazhin. Peremennyi trap. Ochistka pod"emnykh trub ot parafina [illegible]. 3-diumovye gazovye i gazopeschanye iakoria. Dvukhkolonnyi trap. Predokhranitel'nyi rolik na lubrikatore fontannoi skvazhiny. Universal'nyi [illegible] ZIS-5. Nasosnaia ekspluatatsiia glubokikh skvazhin.

Vol. 4, no. 1, 1949.
Contents:-Shiroko vnedrit' apparaturu po issledovaniiu plastovykh neftei. Naznachenie apparatury dlia issledovaniia plastovykh neftei. Osnovnye printsipy issledovaniia plastovykh neftei. Informmaterialy v proizvodstvo. Glubinnye probootborniki. Ustanovka dlia stabilizirovaniia nefti. Vozdushno-rtutnyi press. Rtutnyi izmeritel'nyi press. Maslianaia bania. Opredelenie rastvorimosti gaza. Izmerenie viazkosti plastovoi nefti. Soderzhanie vypuskov, vyshedshikh v 1946, 1947 i 1948 gg. Probootbornik dlia otbora proby zhidkosti iz trapa. Rtutno-gazovyi press. Probootbornik dlia otbora proby gaza. Rekombinirovanie prob.

ol. 4, nos. 2-3, 1949.
Contents:-25 let vnedreniia glubokogo nasosa. Opyt ekspluatatsii reduktornykh stankov-kachalok. Usovershenstvovanie tekhniki glubokonasosnoi ekspluatatsii. Novosti neftianoi tekhniki. Puti usovershenstvovaniia otdel'nykh uzlov glubokikh nasosov normal'nogo riada. Uluchshenie kachestva nasosnykh shtang. Gazovye, peschanye i gazopeschanye iakoria. Ekspluatatsiia nasosnykh shtang. Usovershenstvovanie oborudovaniia ust'ia glubokonasosnykh skvazhin. Podzemnyi remont glubokonasosnykh skvazhin. Kontrol'no-izmeritel'nye pribory glubokonasosnoi ekspluatatsii. Manzhetnye nasosy konstruktsii VNII.

Vol. 1, no. 3, 1949.
Contents:-Kataliticheskii kreking fluid. Krekirovanie sernistogo syr'ia v prisutstvii selektivnykh katalizatorov. Odorizatsiia prirodnogo gaza. Tsel'nometallicheskie uprugie mufty. Normal'nyi ogneupornyi kirpich v podvesnykh svodakh trubchatykh pechei. Zatvor dlia apparatov vysokogo davleniia. Izmenenie konstruktsii i krepleniia skrebkov. Vydelenie sul'fonovykh myl pri kislotnoi ochistke smazochnykh masel. Fil'trpress dlia opytnykh rabot.

Vol. 4, no. 2, 1949.
Contents: Promyshlennaia ustanovka dlia polucheniia sinteticheskogo glitserina. [illegible] ochistka benzina. Parovozdushnyi metod udaleniia koksa iz trubchatykh pechei. Dvukhkamernaia pech' s tiagoi vverkh. Mastika dlia okraski tolevoi krovli. Opyt rekonstruktsii kolonnoi batarei. Uskorennyi metod opredeleniia khloristykh solei v neftiakh. Prisposoblenie dlia izvlecheniia trub iz kondensatorov i teploobmennikov. Ispol'zovanie otrabotannoi shchelochi, poluchaiushcheisia pri ochistke benzinov priamoi gonki. Ustanovka tiazhelovesnoi apparatury na metallicheskie postamenty. Montazh [illegible] kholodil'nika – kondensatora. Izmerenie urovnia krekingostatka v evaporatore.

Vol. 4, no. 3, 1949.
Contents: Kataliticheskii kreking sernistogo gazoilia. Faolitovye truby v proizvodstve kerosinovogo kontakta Petrova. Nepreryvnaia sernokislotnaia ochistka smazochnykh masel. O proizvodstve kal'tsievykh konsistentnykh smazok. Opredelenie kislotnosti etilirovannykh benzinov. Gazoneftianaia [illegible]. Nepreryvnaia promyvka i neitralizatsiia kislogo gudrona. Podogrevateli zhidkogo topliva. Zaglushka dlia ispytaniia i [illegible] flantsevykh soedinenii. [illegible] goriachego mazuta kreking – ustanovki. [illegible] – v proizvodstve. Opyt [illegible] na kompensatorakh paroprovoda.

MONTHLY LIST
of
RUSSIAN ACCESSIONS

VOL. 2, NO. 12 MARCH 1950

THE LIBRARY OF CONGRESS • WASHINGTON

The MONTHLY LIST OF RUSSIAN ACCESSIONS is a record of publications in the Russian language issued in the Soviet Union which are currently received in the Library of Congress and a group of cooperating libraries. Whenever possible, Soviet editions printed in other languages of the minor peoples of the Soviet Union will also be included.

The LIST consists of two parts: Part A containing the monographic literature published since [illegible], and Part B listing the contents of Russian periodicals published since [illegible]. The material is classified by subject and is arranged alphabetically within each class. All entries are transliterated according to the system employed by the Library of Congress with the exception that ligatures are omitted. In some cases, however, where periodical entries have been supplied by others, the titles of articles in each issue are translated into English. Unless otherwise indicated, all listed items are represented in the collections of the Library of Congress. Symbols representing other libraries indicate which items are available in those libraries. A pound sign (# #) around a symbol indicate that the material is available in another library but not in the Library of Congress. Lists of periodicals received regularly by the cooperating libraries will be published from time to time.

Orders for microfilm or photostat copies of the listed items which are in the collections of the Library of Congress may be placed with the Photoduplication Service, Library of Congress, Washington 25, D. C.

The MONTHLY LIST OF RUSSIAN ACCESSIONS is for sale by the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C.

Price, [illegible] cents a copy; subscription price $[illegible] a year domestic, $[illegible] a year foreign.
